

COMPANY PROFILE

1. Corporate Identity & Sourcing Ecosystem

Established in November 2023, Sri Mookambika Agro Foods LLP (SMAF) launched commercial operations in 2024 at its 4-acre Ranebennur facility. The 25,000 sq. ft. plant includes a 6,000 sq. ft. processing area operating under international safety and fair labor standards.

Guided by the motto *"Safe Food. Trusted Processes. Sustainable Growth,"* SMAF provides premium pickled vegetables through a traceable supply chain. The facility features an annual capacity of 3,000 MT and a processing speed of 2.5 MT per hour.

By bridging Indian agricultural networks with global brands, SMAF ensures rapid farm-to-plant logistics and complete traceability. Its mission focuses on sustainable growth and empowering local smallholder farming communities. Our operations go beyond simple processing; we actively partner with local farmers to ensure sustainable growth and community upliftment. By providing mentorship on Integrated Pest Management (IPM) and ensuring fair pricing structures, we create a secure and ethical supply chain. This approach not only guarantees premium quality for our global partners but also strengthens the economic stability of the local rural communities we serve.
